CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE" AND THE "GEM", RESPECTIVELY)

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW AND OUTLOOK

During the three months ended 31st December 2020, the revenue of the Group increased by approximately 17.6% as compared to that of the same period of last year, which was mainly attributable to the increase in revenue generated from the listing-related documents segment of approximately HK\$3.1 million from approximately HK\$4.9 million for the three months ended 31st December 2019 to approximately HK\$8.0 million for the three months ended 31st December 2020; despite the decreases in the revenue from (i) periodical reporting documents segment of approximately HK\$0.7 million from approximately HK\$3.1 million for the three months ended 31st December 2019 to approximately HK\$2.4 million for the three months ended 31st December 2020; (ii) compliance documents segment of approximately HK\$0.2 million from approximately HK\$3.7 million for the three months ended 31st December 2019 to approximately HK\$3.5 million for the three months ended 31st December 2020; and (iii) miscellaneous and marketing collaterals segment of approximately HK\$0.2 million from approximately HK\$0.3 million for the three months ended 31st December 2019 to approximately HK\$0.1 million for the three months ended 31st December 2020. Such increase was mainly due to the increase in the revenue generated from new customers successfully listed on the Stock Exchange for the three months ended 31st December 2020.

The short-term outlook for the global and Hong Kong economies remains uncertain and will be highly dependent on the duration of the COVID-19 outbreak. Nevertheless, the bright spot for the Company is that the Hong Kong initial public offering (“IPO”) market is expected to be strong and active in 2021, including a number of high profile secondary and biotech listings. Hong Kong IPO market should maintain its globally leading position in terms of fund raising size and that will foster the demand for financial printing services. Moreover, we treasure our existing customers and shall continue to provide the premium services to support their financial printing services needs for listing-related documents. EDICO has always been well-positioned to capitalize any market opportunities with its premium services and create the long-term values of our shareholders.
